# about us

## The Terras

Having launched last Summer, we had a successful start to life in Women's Football, finishing 2nd in the Dorset Women's League in our first season. We had a proud record of winning every league game after the opening weekend!

Mirroring the recent success of Weymouth FC Men's team, we are an ambitious club and have our sights on pushing the club as far as we can possibly go. Because of the levels of interest from players in the local area, we are launching a development team to run alongside our first-team this season. We are aiming to provide a clear pathway from girls' football and to give all players a fair amount of game time, as well as developing our younger players to make them ready for senior women's football.

We have gained a group of loyal supporters in our first season and have regularly had crowds of 100+ at our games; their support helped us through an extremely difficult season hampered by lockdowns.

We hope to have your support this season and look forward to what we hope will be another successful year!
